Profhilo®

What is Profhilo®?

Profhilo® is an exclusive skin remodelling treatment designed for individuals with ageing skin that is lacking volume and elasticity. Profhilo® stimulates the production of collagen and elastin through the slow release of Hyaluronic Acid (HA) and in doing so significantly improves the appearance of fine lines and wrinkles as well as increasing hydration and firmness across the face resulting in an overall rejuvenated appearance. If you feel your facial tissue quality has dropped significantly but are not ready for dermal fillers yet, then Profhilo® is the answer!

Where can Profhilo® be used?

Profhilo® is most commonly used for facial areas, but can also effectively be used for rejuvenating the neck, décolleté, arms and hands. Two treatments 4 weeks apart are recommended.

Price: from £250 (Finance Available)

Non Surgical Cosmetic Treatments

Ellansé ®

What is Ellansé ® ?

Ellansé is a collagen stimulating filler, that is naturally reabsorbed by the body. Thanks to its unique, revolutionary properties Ellansé ® not only corrects wrinkles and folds but also stimulates your own collagen production to really treat the underlying causes of facial ageing. The effects are thus immediate and long-lasting giving you a natural youthful appearance - restoring the shape and volume that time has taken away.

What areas can be treated with Ellansé ®

Ellansé is used for sub-dermal correction of wrinkles and other facial ageing signs. Ellansé is designed for use in the deeper layers of the skin, to give the optimal effect. We recommend your Aesthetic Practitioner to diagnose where and how much is required. This can vary amongst patients, depending on the extent of ageing and the desired effect.

Price: From £225 (Finance Available)

Non Surgical Cosmetic Treatments

PDO Thread Lift | Face Lift : Neck Lift : Body Lift

What is PDO?

PDO stands for Polydioxanone - a material used in medicine for many years – mainly in heart surgery. PDO stimulates the production of new collagen in the skin as well as the formulation of elastin and hyaluronic acid vital ingredients for maintaining youthfulness.

This procedure involves the insertion of PDO threads via a cannula. The cannula is then removed leaving the thread in place. Over the following weeks the threads begin to dissolve, leaving the area lifted. An immediate effect can often be seen after treatment, however the results will improve over the course of 2-3 months.

Where can PDO be used?

PDO threads are used for non-surgical face and neck lifts as well as the body to include knees, tummy, thighs, bottom and upper arms.

Price on Consultation – from £350 (Finance Available)

Microdermabrasion

Microdermabrasion is a safe, controlled treatment that intensely exfoliates and resurfaces the skin using a stream of non-allergenic crystals to remove the skin's outermost layers of cells. This provides immediate visible results for ageing skin, fine lines and wrinkles, congested skin and pigmentation.

Microdermabrasion and Deep Cleanse Bespoke Facial	£40
With Enzyme Retexturing Treatment	Add £15
With Enzyme Refining Treatment	Add £15
With Vitamin A Boost Treatment	Add £15
With Detox Clear Treatment	Add £15
With Hyaluronic Acid Face Mask	Add £15
With LED Illumination Therapy	Add £15
With Chemical Peel*	As priced

Dermaplaning

Dermaplaning is a simple and safe procedure for exfoliating the epidermis and ridding the skin of fine vellus hair (peach fuzz). It is especially effective on those with dry or rough skin texture and helps to minimize superficial acne scarring or uneven skin tone.

Dermaplaning and Deep Cleanse Bespoke Facial	£40
With Enzyme Retexturing Treatment	Add £15
With Enzyme Refining Treatment	Add £15
With Vitamin A Boost Treatment	Add £15

Skin Clinic | LED Therapy

LED Illumination Therapy

Described as the 'facial to end all facials' LED illumination therapy is a non-invasive treatment that uses specific colour wavelengths of light that penetrate the skin at varying depths. This stimulates the production of collagen and elastin, increases circulation and lymph drainage as well as helping to normalise cellular imbalance.

This treatment is great for those who suffer with sensitive skin conditions such as rosacea, eczema, psoriasis, acne and congested skin.

LED Illumination Therapy and Deep Cleanse Facial	£50
With Enzyme Retexturing Treatment	Add £15
With Enzyme Refining Treatment	Add £15
With Vitamin A Boost Treatment	Add £15
With Detox Clear Treatment	Add £15
With Hyaluronic Acid Face Mask	Add £15
With Chemical Peel*	As priced

Skin Micro-needling (Using Medical Grade Dermapen up to 2.5mm)

Using the Medical Grade Dermapen, this advanced micro-needling treatment creates 1000s of columns of micro-injury to the skin which stimulates a natural healing response. In turn this will promote new collagen and elastin and effectively help to remodel and reduce the appearance of acne scars, traumatic scars and stretch marks as well as improving the skin's quality, tone and texture.

Medical Grade Skin Micro-needling and Deep Cleanse Facial	£120
With Hyaluronic Acid Face Mask	Add £15
With LED Illumination Therapy	Add £45

*All these treatments provide an excellent base for all chemical peels.

At Adonia we provide a range of peels to suit your skin type and needs. Your Aesthetic Therapist / Practitioner will discuss and recommend the most appropriate peel following a thorough skin evaluation.

Skin Clinic | Plasma Therapy

Plasma Therapy is a procedure designed to improve the effects of ageing skin and is the gentle alternative to skin tightening surgery.

The treatment uses a hand held pen device which generates plasma where a visible smoke is produced, as a result of the sublimating process. Sublimation is the physical term for the shift from solid to gas.

The device heats the dermis which begins to shed post treatment, allowing new fresher skin to form. At the same time, new collagen begins to form resulting in smoother, tighter and younger looking skin.

Many different areas of the skin can be treated namely:

- Hooded and sagging eyelids
- Crow's feet
- Under eye bags
- Forehead lines
- Frown lines
- Nose to mouth lines
- Accordion cheek lines
- Jowl sag
- Neck lines
- Scar reduction
- Stretch marks
- Tightening loose stomach skin after pregnancy
- Skin imperfections, including skin tags, warts and sunspots.

Skin Clinic | Peels

Chemical Peels

A Chemical Peel simply removes a layer of damaged skin from the face by a chemical reaction to reveal a newer, healthier layer. The chemical solution applied causes trauma to the epidermis of the skin, which causes the outer layers to peel away. When the skin begins to heal, increased cell growth produces new, healthier skin layers that give the skin a more youthful appearance. We offer six different types of peel and during your consultation advice will be offered on choosing the correct peel for your skin concerns.

The Glow Peel | Face £200 | Neck & Décolleté £150 | Hands £100

(Dry, normal, oily, dehydrated, acne, hyperpigmentation & ageing) The Glow Peel combines lactic acid, salicylic acid and resorcinol, creating a multipurpose resurfacing solution effective in minimizing the appearance of fine lines, wrinkles and hyperpigmentation issues like age spots, discolouration and uneven skin tone. This formula exfoliates dead skin cells and stimulates cell renewal. To suit individual needs, the Glow Peel can be customized by strength by numbers of layers.
