Microdermabrasion

Microdermabrasion is a safe, controlled treatment that intensely exfoliates and resurfaces the skin using a stream of non-allergenic crystals to remove the skin's outermost layers of cells. This provides immediate visible results for ageing skin, fine lines and wrinkles, congested skin and pigmentation.

Microdermabrasion and Deep Cleanse Bespoke Facial	£40
With Enzyme Retexturing Treatment	Add £15
With Enzyme Refining Treatment	Add £15
With Vitamin A Boost Treatment	Add £15
With Detox Clear Treatment	Add £15
With Hyaluronic Acid Face Mask	Add £15
With LED Illumination Therapy	Add £15
With Chemical Peel*	As priced

Dermaplaning

Dermaplaning is a simple and safe procedure for exfoliating the epidermis and ridding the skin of fine vellus hair (peach fuzz). It is especially effective on those with dry or rough skin texture and helps to minimize superficial acne scarring or uneven skin tone.

Dermaplaning and Deep Cleanse Bespoke Facial	£40
With Enzyme Retexturing Treatment	Add £15
With Enzyme Refining Treatment	Add £15
With Vitamin A Boost Treatment	Add £15

Skin Clinic | LED Therapy

LED Illumination Therapy

Described as the 'facial to end all facials' LED illumination therapy is a non-invasive treatment that uses specific colour wavelengths of light that penetrate the skin at varying depths. This stimulates the production of collagen and elastin, increases circulation and lymph drainage as well as helping to normalise cellular imbalance.

This treatment is great for those who suffer with sensitive skin conditions such as rosacea, eczema, psoriasis, acne and congested skin.

LED Illumination Therapy and Deep Cleanse Facial	£50
With Enzyme Retexturing Treatment	Add £15
With Enzyme Refining Treatment	Add £15
With Vitamin A Boost Treatment	Add £15
With Detox Clear Treatment	Add £15
With Hyaluronic Acid Face Mask	Add £15
With Chemical Peel*	As priced

Skin Micro-needling (Using Medical Grade Dermapen up to 2.5mm)

Using the Medical Grade Dermapen, this advanced micro-needling treatment creates 1000s of columns of micro-injury to the skin which stimulates a natural healing response. In turn this will promote new collagen and elastin and effectively help to remodel and reduce the appearance of acne scars, traumatic scars and stretch marks as well as improving the skin's quality, tone and texture.

Medical Grade Skin Micro-needling and Deep Cleanse Facial	£120
With Hyaluronic Acid Face Mask	Add £15
With LED Illumination Therapy	Add £45

*All these treatments provide an excellent base for all chemical peels.

At Adonia we provide a range of peels to suit your skin type and needs. Your Aesthetic Therapist / Practitioner will discuss and recommend the most appropriate peel following a thorough skin evaluation.

Skin Clinic | Peels

Chemical Peels

A Chemical Peel simply removes a layer of damaged skin from the face by a chemical reaction to reveal a newer, healthier layer. The chemical solution applied causes trauma to the epidermis of the skin, which causes the outer layers to peel away. When the skin begins to heal, increased cell growth produces new, healthier skin layers that give the skin a more youthful appearance. We offer six different types of peel and during your consultation advice will be offered on choosing the correct peel for your skin concerns.

The Glow Peel | Face £200 | Neck & Décolleté £150 | Hands £100

(Dry, normal, oily, dehydrated, acne, hyperpigmentation & ageing) The Glow Peel combines lactic acid, salicylic acid and resorcinol, creating a multipurpose resurfacing solution effective in minimizing the appearance of fine lines, wrinkles and hyperpigmentation issues like age spots, discolouration and uneven skin tone. This formula exfoliates dead skin cells and stimulates cell renewal. To suit individual needs, the Glow Peel can be customized by strength by numbers of layers.
