Microdermabrasion

Microdermabrasion is a safe, controlled treatment that intensely exfoliates and resurfaces the skin using a steam of non-allergenic crystals to remove the skins outermost layers of cells. This provides immediate visible results for ageing skin, fine lines and wrinkles, congested skin and pigmentation.

Thread Vein, Skin tag, Wart, Millia Removal

ThermaVein® is the Gold Standard for Thread Vein Removal Treatment. Adonia Aesthetics are confident we have the safest, permanent treatment for telangiectasia, more commonly referred to as Thread Veins or Spider Veins. ThermaVein® technology delivers the results we want and has quickly become the acclaimed thread and spider vein treatment by healthcare professionals worldwide.

The Therma Vein® thermo-coagulation device offers a complete solution, it is a totally safe treatment, is clinically proven and is permanent.

ThermaVein® uses a process known as Thermocoagulation which seals the thread vein walls, causing them to instantly and permanently disappear and is commonly used in conjunction with Sclerotherapy.

The simple difference between Thermavein and other methods of thread vein removal such as electrolysis is that a very low current of 4MHz is used during treatment. The low current and the fact that we do not treat the blood means ThermaVein is safe, immediate and simple to operate.

Furthermore unlike IPL and lasers, thermavein cannon cause loss of pigmentation.

Thermavein can also be used to treat skin tags, cherry angiomas, spider naevi, millia and warts.

LED Illumination Therapy

Described as the 'facial to end all facials' LED illumination therapy is a non-invasive treatment that uses specific colour wavelengths of light that penetrate the skin at varying depths. This stimulates the production of collagen and elastin, increases circulation and lymph drainage as well as helping to normalise cellular imbalance.

This treatment is great for those who suffer with sensitive skin conditions such as roscea, eczema, psoriasis, acne and congested skin.

Skin Micro-needling (Using Medical Grade Dermapen up to 2.5mm)

Using the Medical Grade Dermapen, this advanced micro-needling treatment creates 1000s of columns of micro-injury to the skin which stimulates a natural healing response. In turn this will promote new collagen and elastin and effectively help to remodel and reduce the appearance of acne scars, traumatic scars and stretch marks as well as improving the skin's quality, tone and texture.

Medical Grade Skin Micro-needling and Deep Cleanse Facial	£120
With Hyaluronic Acid Face Mask	Add £15
With LED Illumination Therapy	Add £45

^{*}All these treatments provide an excellent base for all chemical peels.

At Adonia we provide a range of peels to suit your skin type and needs. Your Aesthetic Therapist / Practitioner will discuss and recommend the most appropriate peel following a thorough skin evaluation.

Skin Clinic | Plasma Therapy

Plasma Therapy is a procedure designed to improve the effects of ageing skin and is the gentle alternative to skin tightening surgery.

The treatment uses a hand held pen device which generates plasma where a visible smoke is produced, as a result of the sublimating process. Sublimation is the physical term for the shift from solid to gas.

The device heats the dermis which begins to shed post treatment, allowing new fresher skin to form. At the same time, new collagen begins to form resulting in smoother, tighter and younger looking skin.

Many different areas of the skin can be treated namely:

- Hooded and sagging eyelids
- Crow's feet
- Under eye bags
- Forehead lines
- Frown lines
- Nose to mouth lines
- Accordion cheek lines

- Jowl sag
- Neck lines
- Scar reduction
- Stretch marks
- Tightening loose stomach skin after pregnancy
- Skin imperfections, including skin tags, warts and sunspots.

Chemical Peels

A Chemical Peel simply removes a layer of damaged skin from the face by a chemical reaction to reveal a newer, healthier layer. The chemical solution applied causes trauma to the epidermis of the skin, which causes the outer layers to peel away. When the skin begins to heal, increased cell growth produces new, healthier skin layers that give the skin a more youthful appearance. We offer six different types of peel and during your consultation advice will be offered on choosing the correct peel for your skin concerns.

The Glow Peel | Face £200 | Neck & Décolleté £150 | Hands £100

(Dry, normal, oily, dehydrated, acne, hyperpigmentation & ageing) The Glow Peel combines lactic acid, salicylic acid and resorcinol, creating a multipurpose resurfacing solution effective in minimizing the appearance of fine lines, wrinkles and hyperpigmentation issues like age spots, discolouration and uneven skin tone. This formula exfoliates dead skin cells and stimulates cell renewal. To suit individual needs, the Glow Peel can be customized by strength by numbers of layers.

With Enzyme Refining Treatment	Add £15
With Vitamin A Boost Treatment	Add £15
With Detox Clear Treatment	Add £15

The Radiant 20/10 Peel | £100

(Acne, hyperpigmentation, uneven skin tone, congestion, open pores & oiliness) With lactic and salicylic acid, radiant 20/10 resurfacing peel contains a powerful combination of them both which improves skin tone and texture by exfoliating dead skin cells and speeding cell turnover. The multipurpose resurfacing peel reduces acne pimples and minimizes the appearance of fine lines and wrinkles, large pores, hyperpigmentation and sun damage.

The Radiant 30 Peel | £100

(Hyperpigmentation, uneven skin tone, dull skin, line & wrinkles) Radiant 30 is an alpha hydroxy acid resurfacing peel containing lactic acid to exfoliate dead skin cells. Boost cell turnover and stimulate collagen, improving skin texture and tone. This multifunctional peel targets multiple skin conditions, including fine lines and wrinkles, discoloration, sun damage and large pores.

With Enzyme Retexturing Treatment	Add £15

With Vitamin A Boost Treatment	Add £15
With Detox Clear Treatment	Add £15

The Perfect Peel | £350

(Hyperpigmentation, acne, uneven skin tone, congestion, open pores, dull skin, lines and wrinkles) The Perfect Peel blends glutathione, kojic acid, TCA, retinoic acid, salicylic acid, phenol, and a blend of minerals and vitamins, including vitamin C. Kojic acid is a powerful lightening agent and proven to increase collagen and elastin production, resulting in skin that is brighter and tighter.

TCA, phenol and retinoic acid reduce wrinkles and correct pigment problems, while salicylic acid exfoliates the skin and reduces inflammation. Alone the ingredients are powerful, but in combination they produce results that are astonishing.
